Behlman Model 00389 COTS Power Supply provides support for critical military missions

*COTS power supply used in U.S. Naval airborne anti-submarine
and anti-ship surveillance and targeting systems.*

Hauppauge, New York, October 31, 2011— Behlman Electronics Inc., known for its leadership in providing power products for military, industrial, and commercial shipboard, airborne and mobile applications, has been selected to supply its Model 00389 COTS power supplies for the U.S. Navy's airborne anti-submarine and anti-ship surveillance and targeting systems.

Behlman's Model 00389 COTS switch mode power supply is a rugged, highly-reliable unit designed and built for military and high-end industrial applications. It is designed to meet the requirements of MIL-STD-704A and RTCA-DO160, as well as MIL-Standards 901; 810C; 167; and 461C/D.

Accepting input power of 115/200 VAC +/-20% @ 360 to 440 Hz, Behlman's Model 00389 units provides eight DC outputs of varying power. This large selection of outputs, along with superb specs for Load and Line Regulation; PARD-Ripple and Noise; Over-voltage Protection; Short-circuit Protection; Current Limit, extreme Operating and Storage Temperatures and high MTBF, make this very compact unit (12 L x 7 W x 2.38 H inches; 30.48 L x 17.78W x 6.04 H cm) ideally suited for its mission. Complete specs are immediately available at <http://www.behlman.com/cots.htm#airborne>.

Ron Storm, Behlman's Vice President of Marketing and Sales, said, *"It is testimony to the quality of our standard off the shelf products, that they are able to perform critical military missions at COTS prices. Even when minor modifications are required to fit military needs exactly, our COTS program saves tax payers the many millions of dollars required for custom designing, engineering and manufacturing. Having recently received an additional order for more of our Model 00389 COTS power supplies from the same customer, is further acknowledgement that our power products meet the demanding requirements of the U.S. Military."*

Behlman Electronics Inc., (www.behlman.com), a subsidiary of Orbit International Corp., manufactures and sells high quality standard, modified standard, custom and COTS power solutions, including AC power supplies, frequency converters, inverters, DC-DC, AC-DC, DC-AC, and uninterruptible power supplies.

Orbit International Corp., (NASDAQ:ORBT), (www.orbitintl.com), based in Hauppauge, New York, is involved in the manufacture of customized electronic components and subsystems for military and nonmilitary government applications. Other subsidiaries include Orbit Instrument, Tulip Development Laboratory and Integrated Combat Systems.
