April 21, 2020

Dear Valued Orbit International Inc. Customers,

Our Company and most other companies and communities continue to be faced with the COVID-19 pandemic. New York Governor Andrew Cuomo has extended his "New York State on PAUSE" executive order thru May 15th in order to ensure uniform safety for all New York State citizens. Certain essential industries though have been identified by New York State as being exempt from this order, one of them being “defense and national security-related operations supporting the U.S. Government or a contractor to the US government”. This exception applies to Orbit International as most of our business is defense related and is either sold directly to the US Government or to major defense contractors in support of US Government contracts.

Out of the necessity to maximize social distancing and to protect the health of our employees, Orbit is continually evaluating how to best meet our obligations as a national defense supplier while also strongly supporting the Governor’s plan to protect New York State citizens from the COVID-19 pandemic. In an effort to maximize social distancing, Orbit has wherever possible, allowed certain employees to work as much as possible from home and staggered our shifts in manufacturing. These steps will help ensure the continuity of our operations as we continue to supply the products that are critical to our customer’s businesses. Orbit will continuously monitor all our orders so that we can be proactive in notifying our customers if their order(s) are affected by COVID-19.

During these difficult times Orbit International Corp. (Orbit) remains financially strong and ready to support the United State’s Defense Industrial Base. Please be assured that the health, safety and support of our employees and customers is our top priority and we are taking appropriate actions based on guidelines issued by the Center for Disease Control and Prevention (CDC), as well as state and local authorities.

Regards,

Executive Management of Orbit International
