**ORBIT INTERNATIONAL'S POWER GROUP RECEIVES
NEW ORDERS VALUED AT APPROXIMATELY \$290,000
FOR USE IN NUCLEAR POWER PLANT**

Potential Future Orders in Excess of \$4,000,000

Company Adds New Independent Director

Hauppauge, New York, March 12, 2008 - Orbit International Corp. (NASDAQ:ORBT), an electronics manufacturer, systems integrator and software solution provider, today announced that its Power Group, Behlman Electronics, Inc. ("Behlman") has received two new orders, valued at approximately \$290,000, for a DC power supply for use in a nuclear power plant control system. Expected deliveries under these contracts are to commence in the second quarter of 2008 and continue through the fourth quarter of 2008.

The unit supporting the nuclear power plant control system was derived from Behlman's highly regarded hot swappable DC power supply used in the MK 119 gun fire control system on the U.S. Navy's DDG 51 class destroyers. Behlman received the initial prototype award for the power plant requirement in September 2007, delivered two prototypes in February 2008 and received immediate approval from the customer resulting in these new production orders. The Company expects additional orders in 2008 and believes that future orders of this power supply could be as many as 250 units over the next five years, with an aggregate value of approximately \$4,000,000.

Mark Tublisky, President of Behlman Electronics, Inc stated, "Behlman's ability to leverage proven design platforms to quickly customize specific power solutions for customer requirements has proven to be very successful in helping to build Behlman's COTS business. Our continued success in providing power solutions further enhances Behlman's reputation as a premier supplier of COTS power solutions."

Dennis Sunshine, President and Chief Executive Officer of Orbit International Corp., commented, "Behlman completed 2007 with bookings of \$10 million, setting a milestone for new contract awards for our Power Group. We are confident that our COTS business strategy will continue to lead to continued growth in this power source marketplace."

(more)

The Company also announced that it has appointed Fredric J. Gruder to its Board of Directors. Mr. Gruder, an attorney at law, has spent his entire career in mergers and acquisitions and corporate/securities law. He is a graduate of Yale Law School and from July 1998 through July 2006, served on the Board of Directors of Harvey Electronics, Inc., a specialty retailer and custom installer of high quality audio/video consumer electronics and home theater products. Mr. Gruder will serve on the Company's Compensation, Audit and Nominating and Corporate Governance Committees.

Sunshine stated, "We are delighted to add Ric Gruder to our Board of Directors. His experience in mergers and acquisitions and corporate/securities law will be a tremendous asset to our Company as we continue to pursue our growth initiatives through strategic accretive acquisitions."

Orbit International Corp. is involved in the manufacture of customized electronic components and subsystems for military and nonmilitary government applications through its production facilities in Hauppauge, New York, Quakertown, Pennsylvania and Louisville, Kentucky. Its Behlman Electronics, Inc. subsidiary manufactures and sells high quality commercial power units, AC power sources, frequency converters, uninterruptible power supplies and associated analytical equipment. The Behlman military division designs, manufactures and sells power units and electronic products for measurement and display.

Certain matters discussed in this news release and oral statements made from time to time by representatives of the Company including, but not limited to, statements regarding any acquisition proposal and whether such proposal or a strategic alternative thereto may be considered or consummated; statements regarding our expectations of Orbit's operating plans, deliveries under contracts and strategies generally; statements regarding our expectations of the performance of our business; expectations regarding costs and revenues, future operating results including all guidance amounts, additional orders, future business opportunities and continued growth, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the Federal securities laws. Although Orbit believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be achieved. Forward-looking information is subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those projected. Many of these factors are beyond Orbit International's ability to control or predict. Important factors that may cause actual results to differ materially and that could impact Orbit International and the statements contained in this news release can be found in Orbit's filings with the Securities and Exchange Commission including quarterly reports on Form 10-Q, current reports on Form 8-K, annual reports on Form 10-K and its other periodic reports and its registration statement on Form S-3 containing a final prospectus dated January 11, 2006.
