Behlman receives follow-on order for COTS Power Supplies used by the US Navy for airborne missions.

Model 00389 Behlman power supply supports anti-submarine and anti-ship surveillance and targeting systems.

Hauppauge, New York, March 26, 2012— Behlman Electronics Inc., known for its leadership in providing power products for military, industrial, and commercial shipboard, airborne and mobile applications, has received an additional order for a quantity of its Model 00389 COTS power supplies for U.S. Navy's airborne antisubmarine and anti-ship surveillance and targeting systems.

Behlman's Model 00389 COTS switch mode power supply is a rugged, highly-reliable unit designed and built for military and high-end industrial applications. It is designed to meet the requirements of MIL-STD-704A and RTCA-DO160, as well as MIL-Standards 901; 810C; 167; and 461C/D. These power supplies have repeatedly proven their reliability and performance in airborne naval systems as well as on shipboard and mobile applications.

Ron Storm, Behlman's Vice President of Marketing and Sales, said, "We are proud to be able to support the US Navy's mission and do so while providing significant cost savings. By providing one of our Standard Commercial Off-the-Shelf power supplies to meet the Navy's specific military requirements, our COTS program saves tax payers the many millions of dollars required for custom designing, engineering and manufacturing."

About the Behlman 00389 COTS Power Supply.

Model 00389 power supplies operate from 115/200 VAC +/-20% at 360 to 440 Hz, and provide eight DC outputs of varying power. Other features include superb specs for Load and Line Regulation; PARD-Ripple and Noise; Over-voltage Protection; Short-circuit Protection; Current Limit, extreme Operating and Storage Temperatures, high MTBF, in a very compact chassis only 12" Long x 7" Wide x 2.38" High (30.48 cm x 17.78 cm x 6.04 cm). Complete specs are available at http://www.behlman.com/cots.htm#airborne.

Behlman Electronics Inc., (<u>www.behlman.com</u>), a subsidiary of Orbit International Corp., manufactures and sells high quality standard, modified standard, custom and COTS power solutions, including AC power supplies, frequency converters, inverters, DC-DC, AC-DC, DC-AC, and uninterruptible power supplies.

Orbit International Corp., (<u>www.orbitintl.com</u>), based in Hauppauge, New York, is involved in the manufacture of customized electronic components and subsystems for military and nonmilitary government applications. Other subsidiaries include Orbit Instrument, Tulip Development Laboratory and Integrated Combat Systems.
