3U VPX High Power Dual-Output Power Supply

The Behlman VPXtra®700D-IQI COTS DC to DC power supply is a rugged, highly reliable, conduction cooled, switchmode unit developed in alignment with the SOSA™ Technical Standard for high-end industrial and military applications. The VPXtra®700D-IQI is a 3U VPX power supply that accepts 28 VDC input IAW MIL-STD-704F and delivers up to 800 Watts of DC power via two outputs. Both outputs may be paralleled for higher power output and/or redundancy, with active load sharing provided for each. The VPXtra®700D-IQI also contains a VITA 46.11 compatible IPMC for integration with system management functions.

The VPXtra®700D-IQI power supply has no minimum load requirement and has overvoltage and short circuit protection as well as over current and thermal protection. The power supply is designed to support the rigors of mission critical airborne, shipboard, vehicle and mobile applications.

Designed and manufactured with *Xtra-Cooling*, *Xtra-Reliable* Design and *Xtra-Rugged* construction, the Behlman VPXtra®700D-IQI is the best choice for your power supply needs.
